# Cyclone Gombe Humanitarian Response Dashboard

June 2022

### SITUATION UPDATE

In 2022, Mozambique was affected by three natural disasters during the cyclonic season (October 2021 to April 2022). Tropical Cyclone Gombe hit the country on 11 March as a Category 3 cyclone in the wake of two extreme weather events - Tropical Storm Ana and Tropical Depression Dumako - which had struck six weeks earlier, affecting 200,000 people.

Tropical Cyclone Gombe left a trail of severe damage and devastation on its path. The cyclone affected 736,000 people and displaced some 23,000 people, causing extensive damage to infrastructures. While the Government's preparedness and response efforts along with the response by humanitarian partners

played a critical role in preventing further loss of lives and quickly responding to the unfolding needs of the displaced people who had lost everything, the rising humanitarian needs outstripped the capacity of humanitarian organizations to respond to the needs brought by the disaster.

The Gombe Emergency Response Plan (ERP) seeks U\$48.07M to deliver life-saving, life-sustaining assistance and protection to 387,000 people in Nampula, Sofala and Zambezia provinces from April to September 2022. At the end of June the ERP is 9 per cent funded having received \$4.3 million from three donors.

### **KEY FIGURES**

Number of organizations who have been responding up to June 2022

## PEOPLE TARGETED AND REACHED BY DISTRICT BETWEEN MARCH 2022 AND JUNE 2022

## Cyclone Gombe Humanitarian Response Dashboard

### **RESPONSE OVERVIEW4**

**283**k people in need

People with access to CCCM services.

## **EDUCATION**

163K people in need

43, 326 Children reached through setting of temporaly learning space and distribution of learner kits

## SHELTER /NFIs

8,470 People assisted with basic emergency shelter and NFIs kit

## **FOOD SECURITY & LIVELIHOODS**

**★** 697ĸ people in need

217 813 People reached with food distribution People reached with livelihood assistance

# **HEALTH**

people in need

217.952 People reached with emergency medical kits distributed in crises affected locations

37,272 people were Detected, notified and responded to outbreaks (cholera, acute water diarrhea, measles)

## **NUTRITION**

- 1,966 Children under 5 children admitted for treatment (SAM and MAM) in the management of acute malnutrition programme
