## ABOUT THE EMERGENCY TRACKING TOOL (ETT)

Due to the volume and fluidity of population movements in Cabo Delgado, IOM's Displacement Tracking Matrix (DTM) rolled out its Emergency Tracking Tool (ETT) methodology in key areas presenting rapid and important movements of populations, in order to ensure the tracking of population on the move and to identify areas of displacement and settlements, and support the identification of critical needs. Mapping displacement trends on a weekly basis complements the information obtained through other activities of the DTM data collection in the country.

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements. Findings from the Emergency Tracking tool aim to provide support to the Government and the humanitarian community by disseminating data on IDPs for effective humanitarian response planning amongst affected populations.

Emergency tracking teams and enumerators are deployed to Ancuabe, Namuno, Balama, Chiure, Ibo, Mueda, Nangade, Montepuez, Palma, Mecufi, and Cidade de Pemba districts to collect data on displacement movements on a daily basis. Due to recent attacks, the DTM team has temporarily stopped assessments in Macomia, Muidumbe, and Mocimboa da Praia districts.

## VULNERABILITY BY LOCALITY (ARRIVALS)

District	Posto	Total Individuals	Unaccompanied/ Separated Children	Pregnant Women	Elderly	Person w/ disability
Ancuabe	Ancuabe	105	-	-	8	-
Balama	Balama	45	4	1	2	-
Chiure	Chiure	186	-	3	3	2
Cidade De Pemba	Cidade De Pemba	1,666	7	7	47	11
Ibo	Ibo	80	7	1	6	2
Mecufi	Mecufi	3	-	-	1	-
Mecufi	Murrebue	7	-	-	-	-
Metuge	Metuge	261	5	2	8	6
Montepuez	Mapupulo	501	5	10	19	3
Mueda	Mueda	1,089	1	25	36	2
Mueda	Negomano	1,128	-	11	46	9
Namuno	Namuno	38	-	-	-	-
Nangade	Nangade	1,418	28	14	42	4
